WORK EXPERIENCE

1 DEC 2022 – CURRENT Berlin, Germany

SOFTWARE DEVELOPER SERVICE.HEALTH

Service.Health is a Software Company in the German Healthcare Sector. The specialization is in the Public Service.

Full Stack Development in the Cloud with Kubernetes and Maintenance of Quarkus Applications in the Backend. SAP UI5 Frontend Development.

Container Orchestration with Kubernetes
Docker Container Creation
Linux Development. Virtual Machines
Amazon Web Services Elastic Cloud
JavaScript ES6
Node.js
Quarkus
Jira
Full-Stack Development
Agile Methodology
Unit Testing
UI Design
Versioning
Responsive Design
Continuous Integration / Continuous Development

2021 – 2022 Barcelona, Spain

SOFTWARE DEVELOPER IGRID T&D

iGrid is a smaller multinational enterprise which specializes in hardware and software development for intelligent electricity networks, mainly in the spanish speaking countries in Europe and Latin America, working closely with the main electricity providers of each country.

Electrical Grid Monitoring for ENDESA (Spain Electricity Group)
Creation of a Visual Map of all the Electrical Stations in Spain

RESTful APIs, GIT, Node.js, NPM, MySQL, TypeScript, Sequelize
HTML5, React.js. Express.js, Authentications, OAuth, Virtual Machines. Debian Linux

The Smart Electricity Grid was sending status information about all electrical networks and stations from around the country. There was a central messaging server for distributing and visualizing the status of the electric network in realtime

2019 – 2019 Barcelona, Spain

UDEMY STUDENT

Intensive Course in React.js Mastery Course “zero to mastery – learn the whole Ecosystem’

React.js
Redux
GraphQL

Other courses taken:

Node.js
Express.js
Data Structures and Algorithms

2018 – 2020 Barcelona, Spain

SERVICE DESK / CODE CAMP STUDENT GLOVO DELIVERIES

Glovo Deliveries is a Software Company in the Food and Goods Delivery Sector. The company experienced explosive growth and became a Startup Unicorn in less than 6 years before it was overtaken by the German company Delivery Hero

2 years part-time CodeCamp – 2000 hours of updating my skills to the newest technologies -
Additional courses on Udemy and Youtube to complement the CodeCamp

Algorithms and Data Structures
Responsive Web Design
Data Visualization
Backend Development and APIs
Unit Testing with Mocha / Chai
TypeScript
GraphQL
MongoDB
OAuth
Odoo ERP System
Postman
JSON

2014 – 2016 Kaunas, Lithuania
